Greg,

I contacted the City at 8:00 this morning and have not heard back from them. I will be in Grand Prairie around 4 this afternoon and begin retrieving the samplers on 28th street.

That makes me feel better. We are in a hurry to get the results.

Subject: Delfasco Forge Passive Soil Samplers

Greg,

Jeff Criner and I were talking this afternoon about the retrieval of the passive soil gas samplers and decided that it would be best to start picking them up tomorrow afternoon and have Thursday morning to complete picking them up. This would have the samplers returning to Beacon Environmental on Friday versus waiting over the weekend and not getting them to Beacon before the middle of next week due to the holidays.

I should be on-site around 4:00 to start picking up the samplers. I will contact the City in-case they want to have somebody on-site during retrieval. In the event that I don't get everything retrieved tomorrow I will finish early on Thursday morning and have everything ready for return shipment for Friday morning delivery. I hope that this does not conflict with you schedule. Please let me know if you have any questions. Thanks.
